ROOM 933 P. 631

CLAUSE II.

To insure the best use and most appropriate development and improvement of each building site therein; to protect the owners of building sites against such improper use of surrounding land as will depreciate the value of their property; to preserve, so far as practicable, the natural beauty of said property; to guard against the erection thereon of poorly designed or proportioned structures and structures built of improper or unsuitable materials; to obtain harmonious appearances; to encourage and secure the erection of attractive homes with appropriate locations thereof on building sites; to secure and maintain proper set-backs from street and adequate free spaces between structures and in general to provide adequately for a high type and quality of improvement on said property and thereby enhance the values of investments made by purchasers of building sites therein, the real property described in Clause I hereof is hereby subjected to the following conditions, restrictions, covenants, reservations and charges, to-wit:

No building shall be erected, altered, placed or permitted to remain on any building site other than one detached family dwelling not to exceed two stories in height, a private garage for not more than three cars and other outbuildings incidental to the residential use of the premises.

(b) No building or change in topography shall be erected, placed, altered or made on any building site until the construction plans and specifications and a plot plan showing the location of the structure and changes in topography, as appropriate, have been approved in writing by the Architectural Control Committee (or by a representative designated by a majority of the members of said Committee) as to quality of workmanship and materials, harmony of external design with existing structures and grades and as to location with respect to topography and finished grade elevation and building lines and as to protection of adjoining and adjacent property. In the event said Committee, or its designated representative, fails to approve or disapprove such design and location within thirty days after said plans and specifications and plot plans have been submitted to it or, in any event, if no suit to enjoin the erection of such building or the making of such alterations has been commenced within thirty days after construction is commenced or prior to the completion thereof (whichever period is the longer), such approval will not be required and this covenant will be deemed to have been complied with (but this sentence shall not be construed to apply to violation of paragraph (g) following). Neither the members of said Committee nor its designated representative shall be entitled to any compensation for services performed pursuant to this covenant. The powers and duties of such Committee and of its designated representative shall cease on January 1, 1939, and thereafter the approval described in this covenant shall not be required unless prior to said date and effective thereon, a written instrument shall have been executed by the then record owners of a majority in area of the land within the boundaries of said Lots and shall have been duly recorded in the office of the Recorder of Deeds of said County appointing a representative or representatives who shall thereafter, for the time specified in said agreement, exercise the same powers exercised by said Committee.
